STOCKTON, SANTA ANITA CLASH IN CENTER'S FIRST FOOTBALL TILT

Although king football season is in its fullest bloom now on the nation's frenzied gridiron, Rohwer center fans will get their initial view tomorrow afternoon when the high-powered Stockton center all-stars tackle Coach Dave Komatsu's fast Santa Anita gridders on the high school field at 2:00 p.m.

G.I. CLOTHING START ISSUING ANITA CLOTHES

Distribution of clothing to Santa Anitans was started yesterday in Warehouse 1 by Alan A. Alexander, who is here from Los Angeles to supervise the work.

Heads, or acting heads, of families were requested by Alexander to bring their old identification numbers when notified by their respective block managers.

"Do not call for your clothing until so notified," he emphasized.

Distributions will be done by blocks, and notifications will be made alphabetically, Alexander said.

Upon identification, the clothing will be loaded on trucks and taken to the respective blocks, where they will be distributed. It was estimated that ten days would be required to complete distribution of the 1600 packages.

The history-making grid battle will be an exclusive Rohwer affair with some 4000 local fans expected for the season's opener.

With the relative strength of both elevens practically unknown, the WRA classic is in for a very close game, which means that breaks will definitely play an important role.

Brilliant player-coach Dave Komatsu will carry the brunt of the load for the speedy Anitans, along with the deadly bullet-passing of Shiro Mizufuka, ex-Whittier high ace.

Arrangements are now being made to obtain farm equipment and land, Rains stated. Forest land now being cleared was not considered suitable for garden crops. However, soy bean will be grown there as an experiment, he indicated.

STOCKTON HAS TEAM COORDINATION

Preparing for tomorrow's contest, the Stockton grid team, composed of former prep stars and few college players, has displayed considerable football skill in practice sessions.

Receiving intensive training in offensive and defensive tactics, in addition to football fundamentals, the Stocktonians have attained team coordination. Beginning practice about ten days earlier than their opponents, the Stockton team will undoubtedly field a smoother squad.

The line, composed of experienced men averaging 175 pounds, presents an impregnable forward wall.--Tom Nakamura.

ANITANS EXHIBIT PLENTY OF SPEED

"They learn fast." The speaker was Coach Dave Komatsu, and he was referring to his Santa Anita mole-skinners, who meet Stockton tomorrow.

Although they are playing together for the first time, Komatsu seemed well pleased with the team play his charges have displayed. The Santa Anitans boast a team average of 165 pounds, with the forward wall tipping the Fairbanks at five pounds more, and they have shown plenty of speed in workouts.

They are using a variation of the single wing-back attack, shifting over from a box. Power plays, interspersed with a bit of deception, have been cooked up for their opponents.
